

Please find attached a partners search for the Migration Institute (University of Granada) in the framework of the Programme "Lifelong Learning".

The main objectives of the project are to share knowledge between researchers, educators, politicians and other relevant stakeholders in order to establish a dialogue between these actors towards developing and implementing more efficient policies and practices for the inclusion of foreign immigrants in the European education system.

If you are interested in participating in this project, please contact **as soon as possible** to:

Ms. Nina Kressova

Tel. +34 958249313

Mail: migraciones@ugr.es

Web Site: <http://migraciones.ugr.es/>

The deadline to submit the project to the EC is the 31st of March.

A PROPOSAL FOR THE ESTABLISHMENT OF THE FIRST EUROPEAN DOCUMENTATION CENTRE ON THE INCLUSION OF FOREIGN IMMIGRANTS IN THE EDUCATION SYSTEM (EDU//N)

The main objectives of the project EDU//N include:

(1) Share knowledge between researchers, educators, politicians, administration and legislation representatives, and (2) establish a dialogue between these actors (3) towards developing and implementing more efficient policies and practices for the inclusion of foreign immigrants in the European education system.

MUTUAL KNOWLEDGE + DIALOG => MORE EFFICIENT POLICIES AND PRACTICES

EDU//N project aims to develop three main actions:

1. Create a digital repository of scientific papers relevant to the national level on "immigrants in the education system." The selection of texts will be conducted by 2 experts hired by each country-partner and will consist of 200 units. The abstracts of papers written in languages other than English will be translated into English. There will be a comprehensive indexing of each document and if possible it will incorporate its full text. All texts will be linked together by using key words, a unique thesaurus presented in the database in all languages of the project.

2. Organize workshops in each partner country to see educational practices aimed at facilitating access and improving the performance of foreign immigrants in the country's education system. Each seminar will be attended by researchers, teachers involved in those programs and representatives of local or national government involved in the coordination and implementation of those educational programs.

3. Organize an international seminar with political and legislative representatives in order to present the project results and recommendations, and with the idea of promoting actions to improve the level of inclusion of immigrants in the European education system.

Final Products:

1) Database of 1200 records with the interface available in all languages of the project and open access from the Internet;

2) Reports from each session about the practices observed during the visit, written by experts and published on the web page of the project;

3) Final report and recommendations presented in the European seminar with participation of politicians, administration and legislation representatives;

4) Two print publications (magazine + book).

The Internet platform will remain active after the end of the project and serve as a source of knowledge, point of contact between researchers, educators and politicians, administration and legislation representatives.
